Sri Lanka

Sri Lanka (its former name was Ceylon) is an island which lies about 100 kilometres to the south east of Cape Comorin at the southern tip of India. Ceylon became part of the British Empire in 1815, previously it had been occupied by Portugal and the Netherlands (Holland). In the early years of the sixteenth century (early 1500's) the Portuguese built a few factories along the coast and every so often they would make raids on the interior of the island stealing from the natives and burning everything that they could not carry away. After occupying the island for about one hundred and fifty years they were driven out by the Dutch people from Holland. The merchants from the Netherlands began to trade with the natives of Ceylon in fish and salt and they received in exchange nuts, ivory and honey. The Dutch were driven out by the British and this very fertile island prospered and began exporting large quantities of tea, rubber and coconut oil.
