Part 4: Reading (10 Marks)**A : Choose the best answer.****Vitamin D**

Scientists have known for a long time that vitamin D is essential for humans. If children have a vitamin D or calcium deficiency, they can develop rickets, a softening of the bones. New studies are showing that people of all ages need vitamin D to help them fight off diseases by keeping their immune systems strong.

- The main idea of this paragraph is that vitamin D _____.
 a. is found in milk
 b. is important for good health
 c. is no secret
- If something is *essential*, it is _____.
 a. needed
 b. expensive
 c. ugly
- When you have a *deficiency* of something, you _____.
 a. have all you need
 b. do not have enough
 c. are rich

Our bodies can make vitamin D when our skin is exposed to sunlight. However, it's best to eat a diet that is rich in the vitamin.

- The above incomplete paragraph.....
 a. say which diseases might be prevented by vitamin D
 b. explain why you should brush your teeth after eating beetles
 c. give some kinds of food that are rich in vitamin D
- Which statement is false?
 a. Some foods contain vitamin D.
 b. Our bodies can use sunlight to make vitamin D.
 c. Some people don't have to get vitamin D from food.

From Outer Space

FoxNews.com reports that Dr. Richard B. Hoover, an astrobiologist at NASA, believes that he has found the fossils of bacteria in meteorites. In other words, he claims to have found traces of life from outer space.

Not surprisingly, his claim is controversial; many scientists do not accept that Dr. Hoover has come to the correct conclusion from what he has observed. Therefore, he has invited over 5,000 scientists to review his work and to publish their comments.

- Bacteria are a _____.
 a. group of scientists
 b. place where meteors come from
 c. kind of restaurant
- When something is *controversial*, people _____.
 a. get sick from it
 b. believe it is ancient and extremely rare
 c. brush their teeth with it

3. Dr. Hoover seems confident that his research will be proven correct because _____.
a. he is named after a vacuum cleaner
b. he has invited many scientists to look closely at his work
c. he gets a rash when he touches meteorites
4. Which statement is *true*?
a. No one believes that Dr. Hoover has made an important discovery.
b. Astrobiologists are smarter than other scientists.
c. Dr. Hoover believes he has found fossils of bacteria.
5. How many scientists has invited to review his works?
a. more than 5,000 scientists
b. less than 5,000 scientists
c. 5,000 scientists

Part 4: Writing (10 Marks)

- A. Write an informal letter to your pen friend about:
a. Name and your family
b. Education
c. Activity after school
