Items 26-30: Choose the most appropriate answers in the box. (5 Marks)

posture	take exercise	make an appointment
strenuous		promoting

Tom had been feeling unwell for days. His mother told him to ____26____ so that the doctor could check what was wrong. The doctor advised him to ____27____ regularly to stay healthy. Tom promised to follow the advice. Later that week, Tom's friend invited him to a martial arts class. At first, he thought it would be easy, but he soon realized it was a very ____28____ activity that needed a lot of effort. The instructor warned the students to keep a good ____29____ while practicing the movements to avoid injuries. Even though it was tough, Tom felt happy because he was ____30____ his fitness and learning something new.

Part III: Seen Passage (5 Marks)

Items 31-35: Read the article and answer.

KEEP IN SHAPE WITHOUT GOING TO THE GYM!

Most people would like to be in good shape, but maybe without having to buy membership to a gym or go out cycling in all kinds of weather. There are so many different options these days to keep fit, while doing something you enjoy. Here are three of our favourites.

1. PARKRUN

Running is, of course, great exercise. Back in 2004, a group of 13 runners near London decided to meet up in their local park on Saturday mornings, every week, and run five kilometres. This has grown into an organisation known as ParkRun - and now there are ParkRun events in over twenty countries. In 2018, there were on average about 250,000 people running five kilometres in 1,500 events worldwide every Saturday. Anyone can register to run: you do it online, and then turn up. Everyone's position and time is recorded, but even though it's a race, a ParkRun event is more about promoting good health and a sense of community. ParkRun is about everyone running 5 km, every week, for free, and forever.

2. ZUMBA

In the mid-1990s, a Colombian dancer called Beto Perez devised a workout programme that was a mixture of aerobics and dancing. He called it Zumba, and it has become an enormous worldwide success. It is said that more than 15 million people in over 180 countries do Zumba regularly. There are several different forms of Zumba. These can be very easy to do or very strenuous indeed! Because of this, almost anyone of any age can do Zumba. It's an excellent way to keep fit and lose weight. Zumba helps to make muscles stronger, to improve posture - and it's a great way to make new friends, too. And if you can't get to a class, there is, of course, an app that lets you take part in Zumba wherever you are.

3. CAPOEIRA

Another activity that mixes dance and exercise is capoeira. It is an Afro-Brazilian martial art that has become increasingly popular around the world. Capoeira was developed in Brazil in the 16th century. African slaves who had been brought to Brazil used it as a way to practise a martial art in secret. Because it is always performed to music, slave owners thought it was a dance. To the steady rhythm of the music from a berimbau (a type of string instrument played with a bow), two people perform a series of kicks and flips, but without ever actually touching each other – at least, not intentionally! It is a demanding form of fitness activity that needs strength and balance and can be done by people of all ages.

Read the texts and answer the questions.

31. How long are ParkRun races and when do they happen?
32. What are the ParkRun events intended to do?
33. What two activities did Zumba bring together?
34. Why is it not absolutely necessary to go to a class to do Zumba?
35. Why was capoeira originally a secret activity?

Part IV: Unseen Reading (5 Marks)

Items 36-40: Read the article and answer.

Andy's Blog Using a computer

All of my friends say that I am good with computers so in today's blog I am going to give you some advice about how to use them to help you with your schoolwork and improve your social life. When you use a computer for schoolwork always remember to save your work every five minutes – not just on your pen drive but online as well. You can use a cloud to do this or attach your work as a document to an email. Never open an attachment from an email if you don't recognise the email address or know the person who sent it to you – it might be a virus! Another good idea is to change your password every few weeks so that it is more difficult for hackers to access your email or social media accounts. Don't use

วิทยาลัยเทคโนโลยีอุตสาหกรรม

passwords that are easy to guess like your name or your birthday – try to use both numbers and letters and they should be at least 8 digits long. I like to go online every day to post messages and upload photos. Always remember that other people can see this content. Think carefully before you upload anything – is this going to make you look friendly, intelligent and funny or just rude? Imagine how terrible it must be to read something bad about yourself online! When there is a problem with your computer, don't get angry. Stay calm and ask for help if you need it. You can usually fix most problems quickly and easily if you get the right advice. There are also useful websites with information about computer problems you can find online. Finally, we use our computers to make new friends and talk to the ones we already have. Computers are useful devices but don't forget to see your friends in person too! Meeting real friends is more fun than talking to virtual ones!

Answer the questions in short answers.

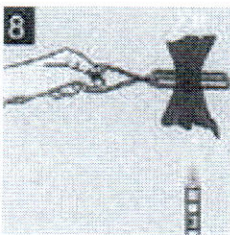

- 36. Why is Andy writing about computers in his blog?
- 37. How can you save your work?
- 38. What shouldn't you do with an email from somebody you don't know?
- 39. How often should you change your password?
- 40. What should your password include?

Part V: Technical English (10 Marks)

Items 41-45: Match the actions with the verbs in the box. (5 Marks)
